

CISCO declares PPC to an „Advanced Backplane – Supplier“

After a two-days audit directed by a number of CISCO Auditors PPC Electronic AG has been confirmed the status of „Approved for Advanced Technology Backplane Production“. The in-depth audit covered all aspects of Management-, Services- and Manufacturing processes. Special attention was paid to environmental processes. The solid partnership, which has been developed with CISCO over the last few years could have been confirmed with this audit.

PPC Electronic AG produces for CISCO advanced technological backplanes with layercounts up to 52, thickness over 10 mm and a size bigger than 1 meter. One of the most demanding products manufactured by PPC Electronic AG.

An outstanding performance of PPC Electronic AG had been confirmed once more through an audit of a world-wide known market leader.
